'PLAN TOWNSHIP BEFORE TOO LATE,' PLANNING COMMISSION IS WARNED

Alameda County's Planning Commission on Wednesday was warned to establish a master plan for Washington Township "before it is too late."

The warning came from the Land Planning Committee, a group of civic leaders and chamber of commerce representatives.

PIPE STRIKE ENDS, 70 BACK ON JOB

Seventy workmen at the U. S. Pipe and Foundry plant near Decoto went back to their jobs Tuesday when a six-week contract dispute with management reached settlement.

Said a statement issued jointly by the company and union:

"Today, Tuesday, September 16, the six weeks' work stoppage at the Decoto Plant of the United States Pipe and Foundry Company terminated. This stoppage began on August 6. Since that time several grievances have been satisfactorily ironed out and terms of a new two-year contract agreed upon. The contract is to run until the middle of September, 1954, but has a reopening clause effective in September, 1953.

"The management of the plant and the representatives of the union, Local No. 3367, Decoto Plant Unit, United Steelworkers of America, C.I.O., report that in spite of the work stoppage, relations between both parties remained pleasant and negotiations were conducted in a friendly, cooperative atmosphere."

NILES NEIGHBOR ROW BOOMERANGS

Steve Guster's complaints about his neighbors backfired Tuesday and landed him in jail.

Guster, aged 55, who lives on Old Niles Canyon Road, came to the sheriff's substation Monday night to complain his wife had been threatened by Mrs. Troy B. Cartwright, 28, a neighbor, when Mrs. Guster tried to adjust a master switch controlling electricity to several cabins in the area.

Investigating officers found little to support the charge. Then a few minutes later another call came, this time from Cartwright, who complained Guster was threatening HIM, using obscene language. Cartwright signed a citizen's arrest charge.

On Tuesday, Judge E. A. Quaresma sent Guster to Santa Rita Prison Farm in default of \$100 bail. He will appear here next week.

TRUMAN WHISTLE STOP FOR NILES

President Truman will make a 10-minute stop in Niles on October 5.

This disclosure came today from Pierre Salinger, of Democratic Headquarters in San Francisco.

Salinger said the President will arrive at the Western Pacific depot at 11:30 a.m., en route to the East after a swing through the Pacific Northwest and a major political address the day before in San Francisco.

It is the first time in local memory that any President has scheduled a stop in Niles.

Salinger said he does not know whether Mr. Truman will speak here, but added he assumes some Presidential words will be forthcoming if a crowd appears.

ENROLLMENT SETS RECORD; SCHOOLS COUNT 4553 PUPILS

Enrollment climbed to more than 4550 in Washington Township schools Monday as the second week of instruction began here. Increasing by 720 students over the first week, registration reached an all-time high of 4553.

Decoto School District reported the greatest increase, as classes jumped 82 students over the first day total of 988, to 1070, Supt. Harold Schoenfeld said. — According to District Superintendent J. V. Gould, registration at Washington Union High School reached 833, an increase of 68 pupils.

Opening day classes were attended by 515 students at Newark Elementary School, Principal John I. MacGregor reported.

Irvington Grammar School's enrollment increased 18 as the second week began, and 413 students attended classes Monday.

Enrollment at Alvarado Elementary School rose 22, according to Leslie H. Maffey, principal, for a total of 240 students in classes.

Alviso Grammar School and Niles Elementary School both reported an increase of seven students. Alviso now has 104, and Niles 667 students in attendance.

District Superintendent Jed Ox-borrow reported 118 pupils in classes at Mission San Jose Elementary School Monday, an increase of three over last week's enrollment.

Registration at Centerville Grammar School was upped six students to a total of 508 in classes, according to Tom Maloney, principal.

The Warm Springs Elementary School counted approximately 95 students attending classes this week, an increase of two over first week enrollments.

Most principals predicted a further increase in students due to late registration and transfers.

INCUMBENTS WIN IN DECOTO BALLOT

Voting in Decoto's sanitary district election Monday followed balloting in Niles-Centerville-Newark, with incumbents returned to directorships by a handy margin.

Victors in the Decoto contest were Bernie Joseph, who received 287 votes; Fred Sanchez, 243, and Manuel White, 238.

Their opponents, Manuel Hidalgo, Kenneth Garcia and R. L. DeCordova, received 182, 154 and 66 votes respectively.

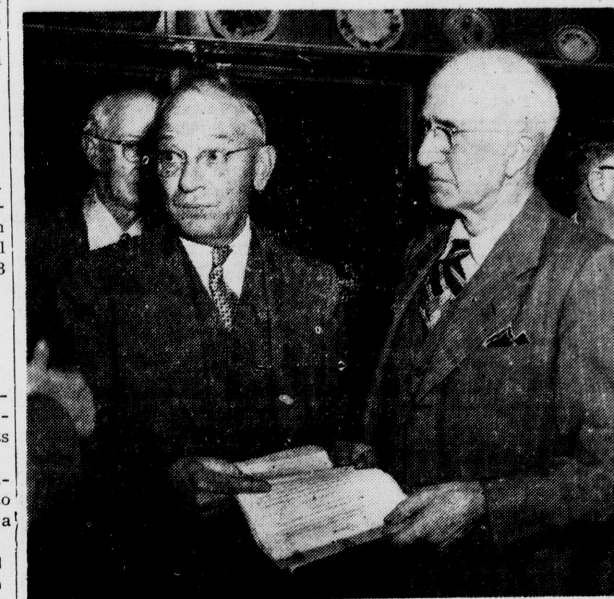

Hidalgo's slate had campaigned on the issue of joining the Union Sanitary District.

At Irvington and Alvarado, directors to similar districts were re-elected without opposition.

SWIM POOL MAY BE STORM CENTER IN OCTOBER 17 HIGH SCHOOL BOND POLL

Controversy over the proposed \$77,000 swimming pool may develop into a heated battle in the \$1,568,000 high school bond election, judging from sentiment voiced at a public meeting Monday. The meeting was called at Washington Union High School by the board of trustees for the purpose of explaining issues involved.

H. S. BONDS GET NOD FROM NEWARK

Directors of the Newark Chamber of Commerce endorsed the \$1,568,000 high school bond issue Tuesday night, thus becoming the first community group to do so.

The okeh came after explanations of the need for more facilities by Irving Hird, faculty member.

Hird stressed hallways, gymnasiums and classrooms are crowded already with 834 students jammed into a school designed for 700, and warned 1500 students will be enrolled within two years.

The directors acted on motion of Frank X. Veit to approve the bonds, which will be presented to voters October 17.

Wednesday night, the Washington Township Chamber of Commerce also endorsed the high school bonds.

MORE FLOOD SURVEYS

Engineers of the Alameda County Flood Control District last month continued surveys of the Patterson Creek district and Coyote Hills Slough in an attempt to solve flood problems in the region.

Opponent Charges Illegal Politics

The Union Sanitary District won \$250,000 worth of bonds in a landslide election Monday, but the landslide left charges of illegal electioneering in its wake.

Voters in Niles, Centerville and Newark turned out in unprecedented numbers for such an election to approve the bonds by a margin of 978 to 147.

They also re-elected Directors H. L. Scott and Manuel Bernardo, the latter by only 29 votes over challenger Arthur Cotton of Newark.

However, sheriff's deputies were twice summoned to the Centerville USD office on Baine Avenue, on complaints that Bernardo and a supporter, J. R. "Pete" Nunes, were soliciting votes within 100 feet of the polls, a violation of State election codes.

The first call came from an unidentified woman. Deputy L. A. White responded and reported he found Nunes at the polling place. Nunes told him Bernardo had been there but left, White said.

Then, little more than an hour before the polls closed, Carl W. Hersey of 750 Sycamore Street, Newark, came to the sheriff's substation to complain to Sgt. William Hildebrand that Bernardo and Nunes were "talking to people standing in line at the polls."

A radio call again sent White to the scene. This time he verified Hersey's report, and said he called Bernardo and Nunes aside and told them they would be arrested if they persisted.

"At this, they became rather antagonistic," White went on. "But upon being told the law they said they would move—not because they were violating regulations, but to avoid friction." At this point, White concluded, the pair stood just outside the 100-foot limit until he left.

The following day, Cotton conferred briefly with his campaign committee to determine if he should contest the vote. He was still undecided today, but told a reporter, referring to supposed witnesses:

"Nobody's talking. But it's shabby politics, and if they can get away with this, they'll get away with anything."

Indications were, however, that no contest would be forthcoming.

By town, the voting ran:
Niles Cyl. Nwk.
Scott 274 225 192
Bernardo 218 273 136
Cotton 111 201 286
Totals were: Scott, 691; Bernardo, 627; Cotton, 598.

CRUSADE OPENS FOR INDUSTRY HERE; HOME DRIVE OCT. 1

With the aim of raising the most money by the most painless means, United Crusade workers began their business-and-industry solicitation in Washington Township this week.

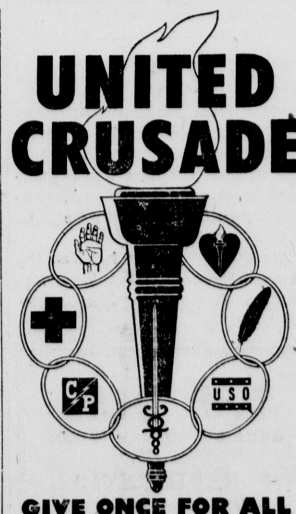

The crusade combines seven major drives and hopes to raise about \$20,000 locally this year, according to Township Chairman Maurice Marks.

Heading the heavy-industry portion of the campaign is Milo Spaich, vice-president of the Pacific States Steel Corporation. Spaich's opposite number for industries employing between 10 and 100 persons is Peter Juhl, PG&E manager at Niles.

"Make the Crusade a success this year and it'll go a long way toward ridding you of door-bell ringers," promised Marks Tuesday night before the Newark Chamber of Commerce.

He urged Townshippers to "cut down" on non-Crusade campaigns in order to force them into the overall appeal.

Solicitations of residential areas starts October 1, Marks reminded. Homes and small businesses are

GIVE ONCE FOR ALL

expected to donate \$8000. Persons who give where they work will not be expected to give at home, he added.

Marks said lower-income workers are expected to give a half of

one per cent of their yearly wage, while one per cent has been set as standard for higher-bracket groups. The payments can be budgeted over 12 months and need not start until next year, he stressed.

The chairman also announced meeting dates for residential solicitor organizations. These are:

September 23, Centerville workers, 8 p.m., Washington High, under Mrs. Florence Myrick.

September 24, Alvarado and Alviso District, under Irma Silva and Mildred Logan, 3 p.m., at 842 Vallejo Street, Alvarado.

September 24, Hillview Crest and Decoto, 8 p.m., under Clyde D. Martin, 1240 Payne Street, Hillview Crest.

September 25, Newark, 8 p.m., home of Mrs. James Robertson.

September 26, Mission-Irvington-Warm Springs, 8 p.m., home of Bruce Michael.

September 30, Niles, 8 p.m., County Building, under Miss Roslyn Egan.

More than 130 workers have volunteered in the Township, Marks said.

How To Build Chicken Feeder That Prevents Wasting Grain

Our friend "Mr. How" comes up with another handyman's tip—this time for the poultryman. His diagram below shows how chickens have to reach toward the center for grain so they drag less of it over the sides.

It's easily cleaned—speeds your sanitation program. To boost this program further, spray cleaned coops, houses and roosts regularly with Standard Poultry House Spray.

It helps get rid of chicken mites, fleas and other blood-sucking vermin such as ticks, spiders and scorpions which weaken poultry, cut down profits.

SMOKE WORKS ASKS TO MAKE MORE

Housewives in Centerville took note this week of an application by the Clement Building Materials Co. to step-up its smoggy, laundry blackening hot-batching operations.

The company, which is located between Niles and Centerville, is asking the County Planning Commission to increase batching capacity here from 5000 pounds to 8000 pounds. A hearing is set next Wednesday.

Eugene Manning, secretary-manager of the Township Chamber of Commerce, today invited interested parties to contact him so he can determine what stand, if any, should be taken before the hearing.

MEN'S CLUB MEET SET FOR SEPT. 25

NEWARK TO SWAP ZONES WITH S. P.

Willing to do a little horse-trading, the Newark Chamber of Commerce this week voted to help the Southern Pacific get itself a strip of industrial land if the SP helps widen the town's residential area.

In exchange for Chamber backing for rezoning SP acreage on Cherry south of Central Avenue, Chamber Committeeman Gordon Cotton suggested the civic group obtain SP approval to let Newark rezone other land between Cherry and California Streets as residential.

The SP land now is zoned for homes, while the other is zoned for industry. The railroad recently was successful in blocking a use permit which would have allowed homes to be built there, contending they are undesirable in an industrial area.

Cotton said he already has verbal approval from SP officials, and said he would appear this week to present the "trade" before the County Planning Commission. His suggestion was adopted by membership vote.

The Planning Commission on Wednesday set September 24 to hear both issues.

San Francisco's first telephone directory, published June 1, 1878, contained 173 listings.

"You can't arrest me—I've got connections," sheriff's deputies reported Clinton C. Giles, 58, Irvington-duck club caretaker, told them when they jailed him for drunken driving early Tuesday in Irvington.

Gillies' forecast proved as erratic as his driving, however, and the officers hauled him away. He is to appear Tuesday in justice court.

DON SHOULD STOOD IN CAMP

Too-hearty celebrants of Donald Silveria's discharge from the Army this week landed Silveria and two friends in jail, charged with beating two other cafe patrons and practically wrecking a Niles cafe.

Silveria, who is 24 and lives in Irvington; Alfred D. Lyon, 24; and Frank L. Bethchart, 23, were arrested Sunday in the Cathay Inn after allegedly thrashing Elmo Potts, 29, of Newark, and Ace Knox, 34, of Centerville.

The proprietor also complained the trio smashed his furniture. All three were fined \$100 and each placed on probation Tuesday by Judge E. A. Quaresma. They said they were celebrating Silveria's release from the Army.

GRAVEL PIT UP TO SUPERVISORS

Denied permission to dig a new gravel pit southwest of Niles, the firm of Rhodes & Jamison this week went over the heads of the County Planning Commission in an appeal to the Board of Supervisors.

The planners rejected R&J's petition to establish the new pit when (1) women led by Mrs. Lyle Buehler and (2) a letter from Niles Chamber of Commerce Secretary Vernon Ellsworth objected to the project.

This week Ellsworth told the Chamber he wrote after finding out that B&J wanted to increase gravel-truck traffic near the town. Ellsworth said he contacted Chamber directors and received permission to send the protest.

Acting President Clifford K. Dennis on Tuesday asked members if they objected to the anti-gravel stand, then receiving none, declared the directors' action sustained.

Results of the Supervisor-R&J meeting were not disclosed at a late hour.

Meantime, Ellsworth reported further excavations are under way at an unofficial "quarry," this one just north of the Southern Pacific underpass in Niles. Discussion on how to stop erosion of the hillside ended inconclusively.

Dennis complained that uncovered gravel trucks are filling First Street "knee-deep in gravel and dirt," and directed Ellsworth to ask the sheriff to enforce laws requiring such trucks to be covered with tarpaulins.

The Rhodes & Jamison appeal bore fruit yesterday, when, at the request of Supervisor Chester E. Stanley, the supervisors tossed it back at the Planning Commission "for further consideration in the light of new evidence."

WATER PRESSURE CAN BE UPPED

Industry in the Newark area got another boost this week when the Alameda County Water District announced it now can supply fire-fighting pipes with water under 160 pounds of pressure.

A letter from W. D. Patterson, district president, to the Newark Chamber of Commerce, advised industries will have to install the heavier pipes required, however.

Water mains now in the region are designed to carry little more than the 60 pounds of pressure now supplied. Patterson said no extra charge will be made for the higher pressure, from Hetch-Hetchy mains. Certain industries can benefit from lower insurance rates if the heavier pressure is available.

Sewer Bonds Win

(Continued from page 1) the Newark disposal plant to the Bay, and to enlarge the plant itself. This will enable it to care for more homes and industry.

Several large industries reportedly were eyeing the outcome of the election. The directors are to meet tonight to canvass the official result.

Nearly one-third of the district's 4000 registered voters cast ballots.

Looking Backward

20 YEARS AGO
September 22 Issue

Bringing work to approximately 21 Niles men, the Pacific Coast Aggregates, Inc., gravel pit opened operations in Niles last week.

Harry Green left Niles Friday evening for New York where he will enter Columbia University for a year's study.

A large eagle was captured by Bill Mendoza of Niles Monday on the Mission Peak Road, after the bird had collided with telephone wires and crippled his wings.

Facing their first baptism of fire this season, Coach Jess Regli and his W.U.H.S. football squad will trek to Gilroy to face the Gilroy team. The probable starting lineup was announced as follows: Booras, center; Wilson and Soit, guards; Sinclair and Herb Harold, tackles; Rodrigues and Rivers, ends; Grimmer, quarter; Ed Rose and Gronley, halves; and F. Me-

derios, fullback. Others who will make the trip are Agna, A. Amara, Boice, Jack Coley, Densmore, Fuller, Farmer, G. Medeiros, Alvin Menez, L. Manuel, Frank Phippen, Wilfred Ramos, A. Silva and A. Vargas.

TEN YEARS AGO

From the September 18 Issue

Thomas Finley McWhirter, 20, son of Dr. and Mrs. W. L. McWhirter of Centerville, has been selected for training as a Naval Aviation Cadet, it was announced by the Naval Aviation Cadet Selection Board, San Francisco.

Pvt. Jack Parry telephoned his mother, Mrs. Catherine Parry at Niles via long distance Sunday morning from Indiana saying he would leave Indianapolis Monday for the Air Corps training center at Boise, Idaho. He hopes to come West on a furlough soon.

Planting of ornamental trees and shrubs and of a lawn outside the Niles Elementary School is going forward at the present time. The improvements on the street side of the building are very pleasing to see.

Leon Vieux, Tom Elliott and H. L. Scott were recently re-elected as members of the Niles Sanitary Commission.

Excerpt from an editorial, written by Publisher Walter Waynflete: "The fact that the first and only Japanese bomb to fall on continental U.S.A. fell harmlessly in the Oregon woods on September 9 and set a small fire which was quickly extinguished, shows that it is still necessary to man observation posts. Oregon watchers saw the plane but apparently failed to identify it."

TO THE VOTERS OF THE UNION SANITARY DISTRICT:

My thanks for the fine vote of confidence you gave your Sanitary District, and also for the vote you accorded me personally.

H. L. SCOTT
Niles Director

Thank You...

Voters of the Decoto Sanitary District, for again expressing your confidence in our administration through your vote for the incumbent directors.

FARMERS OPPOSE STEEL BAY SPAN

A move to block proposals to build a steel bridge between Richmond and San Rafael was made last week by the Alameda County Farm Bureau.

Bruce Michael of Warm Springs urged his fellow directors to ask local Senators and Congressmen to hold up allocation of steel until "feasibility of a solid-fill salt water barrier has been thoroughly investigated."

Michael also asked a recommendation that all county farm bureau centers back the county bureau's stand. The motion carried without dissent.

Michael's motion came at the urging of Santa Cruz County's Farm Bureau, which asked action to halt any construction between Richmond and San Rafael.

Several local farm centers are backing the Reber Plan of solid-fill dams as opposed to further steel bridges across the Bay.

SHERIFF RESERVE JOBS STILL OPEN

Do you want to be a reserve deputy sheriff?

Volunteers are still being accepted for Alameda County's civil defense law enforcement training program, which began last Monday night in Washington Township.

Prospective students in the reserve training classes may sign next Monday when the group convenes at 7 p.m. in Washington Union High School.

Approved students will be taught fundamentals of law enforcement work by regular officers of the Alameda County Sheriff's Department, according to Sheriff H. P. Gleason, county civil defense director.

Burglars Hit Club

Burglary and vandalism in a luxurious duck club near Alvarado was reported to sheriff's officers last week-end.

The club is the property of A. C. Oppenheimer of Piedmont, and was broken into by unidentified vandals who stole blankets, wantonly ripped up mattresses and bedclothes, wrecked an electric duck-picker and other appliances, and generally left the place in shambles.

Damage was estimated at more than \$500 to the club, located on Marsh Road.

TOWNSHIP GETS CD FIRST AID

Activation of the Washington Township Civil Defense First Aid Station is now under way, under direction of Dr. James Malcolm, county health officer.

The first organizational meeting was held September 4 in Centerville, and was attended by Dr. Eugene C. Grau, Niles; Dr. Elmo M. Grimmer, Irvington; Dr. Guy J. Romito, Centerville; Dr. John J. O'Connor, Newark; Lillian C. O'Connor, Newark pharmacist; and Lester I. Whitaker, Niles pharmacist.

Representing the Alameda County Disaster Council medical-health services were Ernest Michelsen and Herbert Davis of the county health department's civil defense staff.

Training of personnel is now being planned, and appointment of a non-medical executive officer, supply officer, supervising nurse, decontamination officer and other key personnel is under consideration.

Since 1934, we've been expanding our system to bring telephone service to the Columbia Basin area.

When the Columbia Basin needed telephones

Making a desert blossom meant building a complete, new communications system

Twenty years ago, much of central Washington was sagebrush wasteland. Then came the Columbia Basin project with its plans for a huge dam and thousands of miles of irrigation canals. Right from the beginning, one of the important "tools" needed was telephone service. And we began, even before a yard of earth was moved, to create a new telephone system in the desert. We've invested hundreds of thousands of dollars to build the new facilities in the Columbia Basin...an investment which will mean much to the West and to the nation. For it is helping turn barren land into rich, food-producing farms.

Highway mobile telephones have been helping contractors and engineers build a network of canals over the vast area. In 1934, we put a private line circuit from Coulee Dam to Ephrata. Today the dam itself is webbed with miles and miles of telephone lines...a nerve system over which practically all operations are controlled. And throughout the Basin area we've been building huge amounts of telephone facilities to take care of its amazingly rapid growth. In Ephrata, for instance, three operators handled all calls in 1942. Today, although dial equipment handles local calls, 25 operators are needed. In Moses Lake, there were 66 telephones in 1935. Today there are more than 2000...and the real growth still lies ahead. Eventually, irrigation water will reach more than a million acres. And we'll keep doing our best to see that the people who move there will have telephone service equal to that in other areas we serve here in the West.

Your telephone is one of today's best bargains

Throughout the West, the Columbia Basin telephone story has been told in hundreds of rapidly growing communities. And, fast as the West's growth has been, the telephone has grown at an even faster rate...twice as fast in the territory we serve. For at today's prices, the telephone is so economical more people can afford it...so useful, more people want it.

\$150 FINE FOR ONE SPIKE BUCK

Shooting a spike buck from his car last month cost Antonio Gunari, 50, of Oakland, a \$150 fine this week in local justice court.

Gunari was arrested by Game Warden Fred Rogers on Mill Creek Road near Mission San Jose on August 15. He pleaded guilty and was fined Tuesday by Judge E. A. Quaresma.

VIVEIROS BUYS NILES BUILDING

Joe Viveiros, operator of Joe's Corner, tavern at First and J Streets in Niles, has purchased the building in which his establishment is located for a price "in excess of \$45,000."

Viveiros made the announcement this week. Seller is Mrs. J. A. Silva, who with her late husband, owned the structure for many years. Viveiros himself has been located there since 1925.

At the same time, Mrs. Silva moved her insurance business from a store in the building on J Street, to her home on the Niles-Hayward Highway.

And Hoyle Easley, proprietor of Easley's Jewelers, moved from a similar spot to a location at 513 First Street, formerly occupied by the Township Cab Co.

Easley plans to open today in the remodeled location.

TRACT PLANNING HIT BY WILSON

Why not force subdividers to include school, firehouse and playground sites in their plans as they do utilities?

This question was raised Tuesday before the Niles Chamber of Commerce by Dr. Thomas C. Wilson.

"They could tack it onto the cost of the house," Wilson commented. Then he shifted his fire a few points to the windward.

"Why don't we get some long range planning out of our Planning Commission? They never do anything until a fight starts."

At John Brahmst's suggestion, the Chamber agreed to ask the Township Chamber of Commerce to invite the commission to appear before it and discuss long range planning, generally, for this area.

CARD OF THANKS

I wish to thank all of my constituents and friends for their support in last Monday's election.

MANUEL J. BERNARDO

By WES SEARS

We've seen how television already has played a major part in the forthcoming presidential election by sending nationwide the picture story of the nominating conventions. That important role is being continued. The huge sum of four million dollars has been set aside by the national committees of both parties for television and radio campaigns promoting their candidates. And every indication points that the amount spent by election time will be more than that.

Just buzzing around: As of last week the FCC had okayed 43 television station grants. . . . A nation-wide poll found that "The Cisco Kid" was the most popular of the non-network western programs. . . . "Time for Beany" the most popular kiddie show. . . . The comedy team of Abbott and Costello found that television was right down the alley for them the past season so now they have made a series of half-hour shows available to any station in the country.

How about this? It is expected that by January 1 micro-wave hook-ups will have been completed to Dallas, New Orleans and Miami so we'll be seeing country-wide the Cotton, Sugar and Orange Bowl football games. . . . Good news for sports fans. The Rose Bowl game, of course, will be televised for its second time. Ah, this television. . . . There's at least three more good reasons for your sports fans to get your television sets now. And, incidentally, you'll find plenty of other entertaining programs to keep you interested in between the sports events. Come in and see the new HOFFMAN at

REGISTRATION WOE REPORTED HERE

Complaints about registration and precincts marred the end of registration for the November 4 election here last week.

As registrars closed their books on September 11, several citizens reported:

1. At least two registrars ran out of books and left a number of late applicants unregistered, and thus without a vote.
2. Several would-be registrants were misdirected and otherwise inconvenienced.

At the County Building, Mrs. Dolores Anderson, receptionist, said she signed up 333 persons and stayed open until late on Thursday. She said she did not turn anyone away.

Before the Centerville Chamber of Commerce on Monday, E. A. Van Scoy declared:

"One person went to the County Building in Oakland, and the girls there told him he'd have to see his supervisor if he wanted to change his registration. It's a fine situation!"

Van Scoy also complained that due to precinct mixups, some husbands and wives still continue to vote in different towns.

FORMER NILES WOMAN DIES IN OAKLAND

FIRST HURDLE CLEARED

By a cracking good majority, voters in Niles, Newark and Centerville have approved a \$250,000 bond issue to expand sewage facilities. The issue was clear-cut: without bigger pipes and clarifiers, few more homes and no more industry could have been accommodated. This point was brought home so strongly and plainly that only a block-head could have failed to appreciate it. And so the bonds passed.

The sanitary bonds were the first hurdle in Washington Township's race to keep abreast of new population and factories. Others scheduled for consideration within the next six weeks include a \$1,568,000 high school project and one for \$1,250,000 to bring a modern hospital here. Both are important, and both are receiving wide publicity from their backers. But both involve infinitely more money than the sanitary bonds, and in both cases more opposition is expected.

In passing judgment, Township voters have plenty of complex arguments to think over. Property-owners will complain about the tax burdens involved. Schoolmen and hospital sympathizers will present believable cases for their projects.

The thing to remember, you voters, is this: Granting the cost, will a bigger high school, a local hospital justify themselves in benefits to the community where I live? Think it over.

SAFETY AND RED TAPE

Centerville has taken the first step toward getting stop lights to control traffic on Main Street, which also happens to be a busy State highway. The Chamber of Commerce has asked the State to survey the street and impose better regulation.

The Division of Highways has a routine to follow on such requests—and rightly so, otherwise every crossroads would have expensive signals and no money would be left for construction. But in considering the Centerville request, we beseech State officialdom to discount the fact that no fatal accidents have occurred in recent months on Main Street, and to remember that delay and too-strict interpretation of statistics will make the responsibility theirs if someone is crushed under the heavy wheels.

SIGNS OF THE TIMES

Did you ever wonder what prompts folks to put up the signs they do by the roadside? We found ourselves wrapped in wonder during a recent fishing trip.

Some of the signs are a frank bid for attention and business. One advises: "Get Gassed Up at Lou's"—then beneath a picture of a cocktail glass it adds the qualification: "On Chevron, Of Course."

Scarcely in the commercial classification was a sign some wag tacked on a cabin which last winter's heavy snows caved in. "Truman Slept Here," ran the lettering. A more forthright partisan topped (or rather underlined) the sentiment with a second sign reading: "But On the Wrong Night."

Finally, we were able to blame anything but bad sequence for the two signs we spotted near Lodi. One, evidently placed by a roadside evangelist, inquired: "Are you tired of your sin?" Behind it, towering high and catching the eye with a neon splash, was another legend: "U-Needa Motel."

350 MORE HOMES SET FOR NEWARK

Another big subdivision for Newark was foreshadowed this week as the County Planning Commission viewed blueprints submitted by Smith & Peters of Hayward to build about 350 homes.

The houses are scheduled to be built between Dairy and Mayhew Landing Roads, and between Cherry and Lincoln Avenue.

The commission will consider approval of the tract next Wednesday.

Newark Bank Soon

Newark still teetered on the verge of getting a hometown bank this week, awaiting word from the Federal Reserve Board.

Paul Gyax, bank committee chairman, told the local Chamber of Commerce Tuesday he expects to hear that the FRB has approved it late this week.

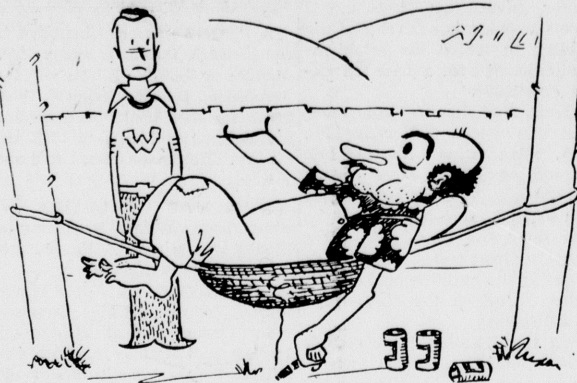

Gyax said the Central Valley Bank, of Richmond, whose application to open a branch here already has State approval, is "ready to go" as soon as the federal nod comes.

Gyax also disclosed Central Valley agents have looked over the former bank building and pronounced it in usable condition, though they still are non-committal about a location.

BERGE PLEA DELAYED

Application of the Berge Mortuary of Irvington to establish itself in a new location was delayed this week while the Planning Commission debated status of mortuaries. No action will be taken until a hearing October 15 on a proposed amendment to zoning ordinances covering such businesses.

MYSTERY MAN WAS NATIONAL CHAMP

Last week's "Mystery Man" was of course, Walter Connolly of Irvington.

This week we have another prominent township man for you. Surely you'll be able to guess his identity, but if there is any question about it, look through the pages of this issue of The Register. You will find the answer.

He is the third generation of an old-time family here. His grandfather came here from the state of New York. His mother came here from Canada when she was sixteen.

He was born in San Francisco, for a very good reason. There was a hospital there, and there was none in Washington Township.

He attended elementary and high school at Centerville. He then became a student at the University of California at Berkeley.

In college, he won the national collegiate championship in a particular sport, after already having tied twice for first place in two previous years. He thus became Washington Township's most famous sportsman.

Although he is no longer active in this particular sport, he is still interested in sports, particularly in football games, which he attends at every opportunity. He also plays a good game of golf.

Upon completing his education, he settled down in the township and embarked upon his life's work.

He married a girl who was born in Alvarado.

He was elected to an important public office only a year after he left the university. He has held this same office for 26 years.

He has also held a number of other important civic offices, as well as offices in lodges.

He holds a high-ranking position in Boy Scouts, although he himself was never a Scout, as the organization wasn't formed until he'd entered college.

His nickname is "Tink."

Guess who!

2 VINEYARDS WIN L. A. FAIR AWARDS

Two local vineyards took top honors at the Los Angeles County Fair, just completed.

Los Amigos Vineyards, owned by Mrs. Ann Mayock of Irvington, was awarded a gold medal in the dry sherry class. Weibel Vineyard of Warm Springs won a similar award for its pink champagne.

Weibel also won a silver medal for its cabernet, and bronze medals for entries of bulk champagne and grey Reisling.

Los Amigos was awarded honorable mention for Pinot Noir wine.

The Los Angeles Fair wine judging is considered one of the nation's top competitions for vintners.

Road Safety Plea

Petitions for double-striping on the highway between Niles and Decoto, and for safety signs on the Mission-Livermore grade were sent to State officials this week at the request of the Washington Township Chamber of Commerce.

Dr. E. M. Grimmer Jr. had pressed for the striping on the three-lane route, and Michael Overacker told the chamber lack of signs contributes to accidents on the grade, where Mission San Jose school buses run.

Thinking Things Over : : : By VIVIAN BATMAN

There are many interesting things in the new phone book. And how do you like the way all of the towns of Washington Township are listed under one heading? Simplifies things, don't you think?

The Silvas win out this time. There are 65 Silvas. Roses come next, with 43. If you are a Silva or a Rose, you probably undergo a great deal of mental stress and strain because people call you, thinking you are some other Silva, or Rose. To make it even more difficult, 16 of the Silvas have "M" as a first initial!

For my money, the most interesting name in the Washington Township listing is Pio Mosquito, of Alvarado-Centerville Road. It's not only lilting in sound, but it has all kinds of possibilities. For instance, someone might remark innocently—someone who lives on the Alvarado-Centerville Road—"We have Mosquitos out near us."

Can't you see the mosquito-annoyance crew galvanized into action, tearing off down the Alvarado-Centerville Road?

In the new telephone book there are four pages devoted to explaining "message units."

The whole thing is still as much of an enigma to me as it was before the new book came out.

I am writing a letter to the telephone company asking them to PLEASE start a course in MESSAGE UNITS in this area. I am also suggesting to Mr. Gravestock, principal of the adult evening school at Washington High, that he, too, organize a class in MESSAGE UNIT DECIPHERING.

For example, if I were to take such a course, I might be able to understand the following, which I have puzzled over every night since the phone book came out. It has become my bed-time reading:

"MESSAGE UNITS ARE CHARGED FOR AT 4.4c for each Message Unit except on calls from coin box, public, hotel private branch exchanges and business foreign exchange services for which a charge of 5c for each Message Unit is made. Monthly bills show the total charges applicable for Message Units."

However, even in the event I DID learn what a MESSAGE UNIT is, I still would be unable to figure out my telephone bill, for—I'll have to confess—I have difficulty multiplying by decimals! So what I would do with 4.4c multiplied by a message unit is anybody's guess.
